Pothole Fund Department for Transport Section 31 Grant Determination (2016/17)

Milton Keynes submitted an application for funds made available for the local highway network through the above 'Pothole Fund 16/17'.

Following assessment of this bid, by the Department for Transport, the authority was awarded £168,000 of capital funding grant.

In accordance with the grant conditions Milton Keynes has used this capital grant determination to undertake resurfacing of the carriageway to stop the formation of potholes. Milton Keynes has with this funding carried out the equivalent of 940 linear metres of Resurfacing.

Milton Keynes had an original budgeted a figure of £6.2 million for capital surfacing and surface treatments in the year 2016/17. This additional funding was allocated to the overall capital budget to increase the overall program of carriageway improvements leading to an improvement in road condition applying 'Asset Management' principles.

The funding did not displace any planned capital expenditure.

Regards,
